

APPEARANCE PROTECTION PRODUCT

Appearance Protection is a product that is designed to maintain a vehicle's interior and exterior appearance and protect it from the environmental hazards drivers face on a daily and seasonal basis.

Coverage

- **Paint Protectant:** The Appearance Protection application helps keep the high luster and shine of a vehicle. Its carbon ceramic polymer bonds to the applied surfaces of the vehicle to provide additional strength, heat resistance, and flexibility. Assists in the prevention of damage caused by weather-induced fading, oxidation, water spotting, bird droppings, tree sap, acid rain, love bug damage, and industrial fallout.
- **Vinyl & Leather Protector:** The Appearance Protection application protects treated leather and vinyl interior surfaces from damage caused by sun or temperature extremes.
- **Fabric and Carpet Protector:** Fabric & Carpet Protector will assist in the prevention of damage caused by stains and UV fading.

Application

- Appearance Protection formula can be easily applied in minutes
